

BARAN SIEGEMASTERS IMPERIAL GUARD ARMY LIST¹

“We’ve been “claiming” this damned planet for the Imperium all of my life, and all of my father and grandfathers lives before that. I just wish someone would get round to telling those damned Orks to get off our damned land!”

Forces

The Baran Siegemasters Imperial Guard Army List uses the datasheets from the Baran Siegemaster Forces section, the Imperial Navy Forces section.

Using The Army List

The following army list allows you to field an Imperial Guard army that is based on a Siege regiment of the type typified by the Baran Siegemasters. It can also be used as a “stand in” army list for other Imperial Guard Siege regiments, other kinds of static defence regiment, as well as being an excellent army list to use to represent the planetary defence forces fielded by Imperial Governors all across the Imperium.

Baran Siegemaster formations come in two types: *companies* and *support formations*. Each company you include in the army allows you to field any two support formations, plus one set of Fortified Positions. Although you can only take a support formation if you first take a company, they are treated as separate independent formations during a battle and do not have to move around together.

In addition, companies may be given up to three company upgrades. Each type of upgrade can only be taken once by a company. Upgrades are added to the company and are not a separate formation. Support formations may not be given company upgrades. Each upgrade that is taken adds to the cost of the company, as shown on the upgrade chart. Note that you may take any type of upgrade for any type of company.

Baran Siegemasters Imperial Guard armies may be supported by Imperial Navy aircraft. A maximum of up to a fourth of the points available to the army may be spent on these formations.

Special Rules

The *Commissars* rule applies to Baran Siegemasters Imperial Guard armies (see *Commissars*).

1. Baran Siegemasters Imperial Guard Army List

- Q: If a Sapper Platoon is split up and added to one or more companies is the Break Their Spirit goal or tiebreak affected?
 A: Yes, each unit of Sappers adds +30 points to the company it is added to.

SPECIAL RULE

Regimental HQs

When playing Epic tournament games, a Siegemaster army must include a Regimental HQ. The enemy count as having achieved the “Break Their Spirit” goal by destroying this formation or by destroying the most expensive formation in the army (see Victory Conditions).

SPECIAL RULE

Fortified Positions²

A Siege Regiment army regiment is allowed to purchase one set of fortified positions for its troops to occupy for each Regimental HQ or Infantry company included in the army.

Fortified positions must be set up after Objectives, but before Spacecraft and Garrisons are deployed. They may be set up anywhere a vehicle may deploy in the Siegemasters half of the table. You may split up a set of fortified positions as desired, as long as the rules for formation coherence are adhered to. For example, you could split up trenches into several lines, as long as there are 5cm “links” between the different parts of the position. Fortified positions count as having a move of zero, and may “garrison” (e.g., they can be set up in positions that garrison units can be set up in). It goes without saying that they may not be transported, and any players that were considering transporting them onto the table should be deeply ashamed of themselves!

Once set up fortified positions may be used by any unit, not just the units they were purchased for. They may be captured and used by enemy units too.

2. Fortified Positions

- Q: Do all Fortified Positions purchased need to be set up?
 A: No.
 Q: Are Fortified Positions counted during tiebreak?
 A: No.
 Q: Are the Gun Emplacements that come with certain formation set up at the same time as Fortified Positions?
 A: No, these are setup with the formation they are part of.
 Q: Are the Gun Emplacements that come with certain formation units in the formation?
 A: No, they just need to be set up in coherency with the rest of the formation.

SPECIAL RULE

Commissars

An Imperial Guard army may include one Commissar character per 500 points, or part thereof, in the army. The Commissars do not cost any points.

Commissar units may be added to the army at the start of the battle before either side sets up. If the army includes a Supreme Commander then the first Commissar must be attached to the Supreme Commander's formation. Any further Commissars may be attached to any other formations.

You may not include more than one Commissar per formation. You may not add a Commissar to an Imperial Ally formation. If you have more Commissars than formations any excess is lost.
